Ahmad Raza

Frontend Developer • AI Automation

Muridke, Pakistan | razaahmadzafar.dev@gmail.com | +92 301 6710621 | linkedin.com/in/ahmad-raza-864375363/ | github.com/Raza-Ahmad-09 | https://razaahmad.tech

SUMMARY

Agentic AI Engineer with hands-on experience designing, automating, and deploying multi-agent workflows using n8n, OpenClaw, and modern LLM tool-calling frameworks. Skilled at turning manual, repetitive processes into reliable, self-healing automations that connect APIs, CRMs, and internal tools. Comfortable owning a project end-to-end — from architecture and prompt design to deployment, monitoring, and cost optimization.

CORE SKILLS

Automation & Orchestration: n8n, OpenClaw, Zapier, Make.com

LLMs & Agentic AI: tool use / function calling, prompt engineering

Integrations: REST & webhook APIs, CRMs (HubSpot/Salesforce)

Engineering: Python, JavaScript/TypeScript, Docker, Postgres, Git

Infrastructure: Self-hosted n8n on VPS, queue-based scaling, webhook security, observability & logging

EXPERIENCE

Frontend Developer | Synergic Corporate Solution *August 2025 – March 2026*

onsite / Muridke, Punjab, Pakistan

- Worked on Zeno Trade Pro, a web-based ERP solution software especially designed for Mills.
